Carrie Kidd Founder, Harmony for Hope, Inc.  
704 & 708 Main Street  
Mount Hope, WV 25880

Dear Ms. Kidd,

On behalf of the Town of Thurmond, West Virginia, I am pleased to provide this Letter of Support for the New River Gorge Heritage & Visitor Connectivity Mesh Pilot being developed by Harmony for Hope, Inc. and Kidd's Technical Services.

The Town of Thurmond recognizes the public value of this initiative as a heritage interpretation and visitor safety effort consistent with Thurmond's identity as a preserved rail and coal community and its longstanding commitment to connecting visitors with the history this town holds.

By this letter, the Town of Thurmond:

- Supports Harmony for Hope's use of this letter in grant applications and partnership discussions with the National Park Service and other federal, state, and regional agencies.
- Supports continued exploration of Thurmond's potential role as a node in the corridor pilot, subject to all applicable National Park Service permitting, Section 106 review, and federal governance processes.
- Is willing to participate in further conversations about site-specific implementation if funding is secured.

This letter does not obligate the Town of Thurmond to provide funding of any kind, authorize the installation of hardware at any specific site, waive or replace any applicable permitting or review process, commit the Town of Thurmond to a contract or operating agreement, or bind the Town of Thurmond to support final implementation if later details are not acceptable.

This is a concept endorsement for grant and partnership development purposes only.

Sincerely,

Melanie Dragan  
Mayor, Town of Thurmond
